Note that preliminary analysis filed on January 10, 2002 was not screened where applicant claimed priority for its application No. 09/113,385 in the first instance of the specification and the examiner added its reference to its application No. 09/113,385. The rejections were made after consulting with 1600 Biotech Specialist Brian Stanton and SPE 637 Gary Benzon. Primary Examiner, Ethan Liscow suggests that the examiner do not make 102/103 rejection on claim 20.
